

# 樹枝粉碎機 WE-M6R

## BENEFITS

- Ideal for rental yards, landscapers, golf courses, pruning crews, orchard maintenance and homeowners, this compact, portable machine provides powerful chipping action.
- The feed system with 23ci hydraulic motor generates more than 2,000 lb./ft. of materials pulling force for easy feeding.
- The small, lightweight design makes the machine simple to use with minimal moving components.
- The 13 1/2" diameter x 10 1/2" wide, two-knife machined chipping rotor with removable drum shaft is a highly durable cutting system that will provide years of trouble-free and reliable service.
- Like all equipment, the M6R is a long-lasting, durable machine backed by a world-class parts and service support team.

### Belt Drive

Direct drive with belt power transfer eliminates clutch components and over center belt tensioning systems, reducing problem areas and easing maintenance burdens.

### Hydraulic Drum Brake

Exclusive hydraulic drum brake reduces rotor stop time when engine is keyed off, bringing the chipping rotor to rest within seconds.

### 180° Swivel Discharge

180° swivel discharge chute with adjustable flipper end to deflect chips puts chips right where they're needed without removing the Beaver from the tow vehicle.

### Infeed

The 66-square-inch infeed throat opening allows for safer feeding and reduced labor for trimming.

## SPECIFICATIONS

SPECIFICATIONS MAY VARY WITH EQUIPMENT OPTIONS 6/29/15

### General

|                            |                                 |
|----------------------------|---------------------------------|
| Chipping capacity          | 6"                              |
| Height                     | 6'5"                            |
| Width                      | 4'8"                            |
| Length (transport)         | 13'8"                           |
| Length (operating)         | 14'3"                           |
| Gross weight (approximate) | 1,770 lbs.                      |
| Suspension                 | 1,800 lb. torsion               |
| Infeed opening             | 30" wide x 22" high             |
| Throat opening             | 11" wide x 6" high              |
| Drum                       | 10 1/2" wide x 13 1/2" diameter |
| Engine                     | Kohler                          |
| Horsepower                 | 25 HP                           |
| Fuel capacity              | 7 gallons                       |
| Hydraulic capacity         | 6 gallons                       |
| Frame                      | 3" x 1 1/2" Tubular Steel       |
| Tires                      | 20.5 x 8 x 10 – 8-ply           |
| Hitch                      | 2" Ball                         |

### Equipment Highlights

Direct drive with belt power transfer  
 Exclusive hydraulic drum braking system  
 Automatic feed system  
 Reversible feed works control bar and dual safety cables  
 10 1/2" wide x 13 1/2" diameter solid drum with two dual-edged chipper knives  
 Single top feed wheel compression system with spring-assisted down pressure  
 Folding infeed tray  
 180° swivel discharge chute with adjustable flipper end to deflect chips  
 Morthane Paint System: A chemically cured, electrostatically applied urethane coating with high-gloss finish, built in UV protection, chip and chemical resistance and corrosion protection

### Additional Features

Swing-away front jack with castor wheel  
 Fuel tank sight gauge, drain plug and shut-off valve  
 Hydraulic reservoir sight gauge, shut-off valve, drain plug, clean-out cover and vented filter head assembly with dipstick to check oil levels

### Options

ChipSafe® Operator Safety Shield  
 Variable speed flow control  
 Custom paint and logo packages  
 Knife saver tool  
 Material pushing tool  
 Spare tire with rim  
 Spanish and English safety decals
