圓型牧草打包機

COMBINED FIXED CHAMBER ROUND BALER

Fixed chamber round baler with rollers and combined film wrapper

DUETTO 125 - TOPCUT - ULTRACUT

**FIXED CHAMBER WITH ROLLERS
COMBINED TO WRAPPER**

To obtain high-quality fodder it must be treated with care. The proof that bales make for high-quality silage is the low ammonia content. To open a bale and to smell the scent of the fodder is a clear indication of its excellent quality.

DUETTO allows you to harvest, cut, pack and wrap fodder with the wrapper, thus immediately sealing the quality inside the bale.

FERABOLI ROUND BALERS

Feraboli round balers are designed for the maximum flexibility and reliability in any condition. The baling chamber is equipped with 18 rollers. Delicate with premium products and perfect with moist fodder, also ideal with difficult products such as cornstalks and straw. Long life, high work capacity, perfectly shaped bales, compact and heavyweight: all these features make Feraboli round balers a profitable investment.

DUETTO 125 - TOPCUT - ULTRACUT

Combined machine, ideal for harvesting green grass (fallow, ryegrass and alfalfa).

The product is wrapped after being baled to avoid possible further contamination caused by contact with the ground.

DUETTO 125 - TOPCUT - ULTRACUT

TECHNICAL DETAILS

DUETTO allows you to perform the harvest-baling phase together with the wrapping phase, cutting work time and costs in half. The work cycle is performed automatically. During harvesting and forming of the bale, the rear wrapper wraps and unloads the bale made previously.

18 ROLLER CHAMBER

7-POSITION PRESSURE SELECTOR

EASYTRONIC

Simple easy to use control unit to change bale diameter, baling density, binding system, all visible on a large graphic display.

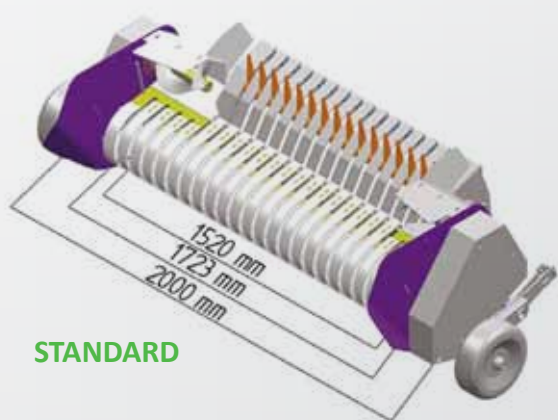

ALL IN JUST ONE PASS!

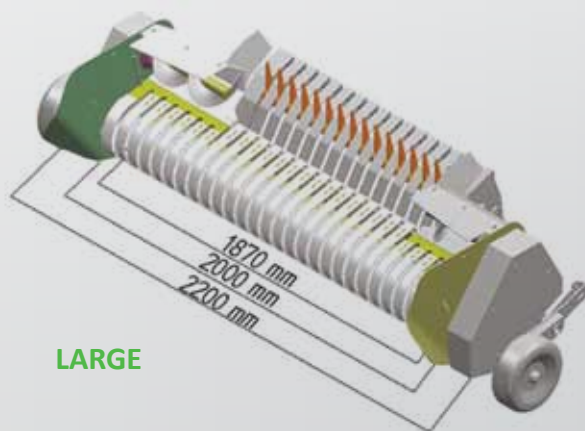

WRAPPING SYSTEM

Ideal for reducing trampling on the ground, work time and fuel consumption.
