

水田整平迴轉犁

WE-WJ 系列

Enables preparation of 5m 60cm of soil simultaneously!

- Extra-wide width rotavator works on 3.5 to 5.6m area and dramatically reduces working time and costs.

- Folds into three layers when working in seedbeds, and is simple to move.

- Specially designed blades are excellent for carrying out soil preparation. Buries rice straws, including weeds, deeply.

- Attached leveling control-enabled harrow device to facilitate complete land formation with a single rotary process.

Specification

Model	Size(mm)			Tilling Width (mm)	Required Power(hp)	Weight (kg)	Flange Quantity	Blade Quantity
	Length	Width	Height					
WJ350F	1,100	4,000(Folding Width:2,400)	1,230	3,500	45~55	820	19	80
WJ400F	1,100	4,500(Folding Width:2,400)	1,230	4,000	55~70	890	21	88
