

Collection system

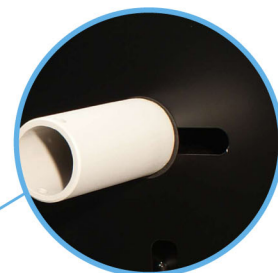

Autocollect

ASSISTED SYSTEM FOR SEMEN COLLECTION

Guide system

Double, stainless steel guide system that slides smoothly with the movements of the boar.

Supports

Designed for comfort of the boar. Adjustable length, easy to clean. Rounded edges to prevent lesions.

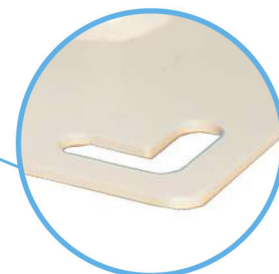

Finishing

Non-slip surface and rounded edges for safety of the animal.

Adjustable height

Fits comfortably the height of the boar and the collection pit.

Ground stand

Larger anchors for tighter fastening.

BENEFITS

1. PRODUCTIVITY.

Autocollect system is a solution designed to facilitate your staff's work. Reduces physical load and increases the number of collections.

2. PROFITABILITY.

Autocollect is the most effective solution for everyday work that increases staff productivity/profitability and collection rhythm.

3. HYGIENIC CONDITIONS.

Less human intervention in the collection process, reducing the risk of bacterial contamination. Autocollect is the most hygienic solution for manipulating ejaculates.

4. UNIVERSALITY.

Suitable for all types of breeds and facilities.
